## CHANGE OF COMPANY NAMES

S.E.S. Scandinavian Electronics AB has delivered steam boiler combustion control systems to more than 500 ships – mainly tankers and cruising vessels – as well as power plants and heavy industry world wide. The well-known steam boiler automation company has grown and changes its name to **SES Combustion AB**.

When S.E.S. Scandinavian Electronics AB was founded in 1980 control systems for steam boilers was the only activity. Boiler automation is still a very important part. However, today most parts in the steam boiler plant are supplied and mechanical repair and maintenance work become more important each year. The word “*Electronics*” does not cover the business range of the company any longer.

The new name does not result in any other changes. SES Combustion AB has the same company VAT No., same staff, same address, phone No., fax No., bank accounts, Swift address, email addresses and home page as S.E.S. Scandinavian Electronics AB had before.

At the same time Lekoda AB – parent company to SES Combustion AB – changes its name to S.E.S. Scandinavian Electronics AB. This is to ensure that all goods and correspondence that will arrive in the old name will be forwarded to the right place and person. The parent company has the same address, phone No., fax No. and email addresses as the affiliated company SES Combustion AB.

SES Combustion AB offers following services and products:

- **Service and maintenance** of steam boiler plants in ships and on land (world wide).
- **Complete automation** for steam boilers in ships and on land (world wide).
- **Burner Management** for industry (recovery boilers incl.) and power/heating plants.
- **Safety systems** for steam boilers in industry (recovery boilers incl.), power/heating plants.
- **SES OBS** Smoke Density Monitor (opacity) for funnels in ships and industry (world wide).
- **SESMAN** easy hand operation unit for valves and actuators controlled by a PLC (world wide).
- **SES-Turboflame** oil- and gas burner for marine boilers (world wide).
- **Fireye** flame scanners and burner sequence units (in Sweden)
- **Forney** spark igniters and combustion products ( in Sweden)
- **Hegwein** gas igniters (in Sweden).
- **Uni-Geräte** gas valves with all certificates (in Sweden).
- **Hays Cleveland** pressure switches (in Sweden)
- **Tecmark** pressure switches (in Sweden).
- **Other products and systems** from former **Heede Controls** (world wide).
- **Automation** for water cleaning plants.

We look forward to continue doing business with you and will do our best to give good service in the old company with the new name: **SES Combustion AB**

Leif Dahlstrand  
President
